**BOOMERANG COLLECTION**

The Boomerang Collection is one that consists of ellipses and curves. Although the name suggests the movement of flight and rotation, this finds a greater sense of purpose in being securely lodged in the most serene and luxurious of surroundings.

**KUDOS DESIGN COMPETITION**

In association with Hotelier, Middle East, Kudos hosted a design competition. The brief was to design a new type of Day Bed for pool, beach, lounging and relaxing that is suitable for a 5 star hotel. In the age of technological trends and gadgets, people would rather socialise in the virtual world rather than the real world. We were looking for a form that would allow people to sit in a way that makes direct and friendly communication easier for families, friends, colleagues and loved ones.

A total of 18 entries were submitted, each with their own unique form of expression to our brief. Inspiration was taken from many different aspects, such as Nature, Bird Nests or Desert Roses, and even mathematic parabolic surfaces .

The finalists included:

- Emanuela Corti
- Bersun Erturk
- Hassan Ali

Finalist Works will be showcased in the next months issue of the Kudos Newsletter.

**DID YOU KNOW?**
